REASONS FOR ALLOWANCE

The finality of the Office action mailed on 01/25/2008 is hereby withdrawn. A new Office action on the merits follows.

Claims 1-5 and 7-50 are allowed.

The following is an examiner's statement of reasons for allowance: Upon further review, the previous claim rejections in view of JP 2003-014974 to Saito et al. have been withdrawn. In the examiner's opinion, the Saito document does not teach "a guide portion facing the second surface of the fixing body and comprising two sloped portions configured to interface with the second groove to align the optical fiber therein" as recited by independent claim 32. Furthermore, there is no additional prior art available such that any claim rejection would be considered proper.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Patent No. 4,276,113 to Carlsen et al. discloses a base member having multiple grooves and a pressing member having sloped portions.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to OMAR ROJAS whose telephone number is (571)272-2357. The examiner can normally be reached on Monday-Friday (11:00AM-7:00PM).
